

ALL-CAMPUS JUDICIAL COUNCIL

UNIVERSITY OF ROCHESTER STUDENTS' ASSOCIATION

(Summary of Events added 10/17/2004: Senator Geoff Bowser requested an injunction to prevent the "impeachment" of Senator Jack Voorhees from the SA Steering Committee from being an agenda item at the next Senate meeting. The request alleged that the motion for impeachment was out of order according to the SA Bylaws and Robert's Rules of Order since the Bylaws default to them in some instances.)

Injunction Denied

The application for Injunction against an impeachment hearing by the Students' Association Senate of Jack Voorhees presented to the Chief Justice and by her referred to the council is denied. The Council feels that injunctions are serious acts which should only be issued when irreparable consequences will result should the act (impeachment proceedings) in question occur. In the judgment of the Council, this issue is not yet ripe for decision by ACJC, as no action has yet been taken by the Senate and no action with irreparable consequences is threatened. If or when the Senate takes some action that constitutes a justiciable question, the petitioner is invited to re-apply.
