Expansion of Methods for Verifying Resolutions
Senate Bill No. 5

SUBMITTED BY:  Nicholas Pierce '19, Senator
Jordan Smith '18, Senator

TO CLARIFY THE TOOLS AVAILABLE TO SENATORS
In its first year, the improved standards for writing resolutions encouraged Senators to gather substantive proof to both verify their claims in regards to their initiatives as well as to encourage engagement with their constituents. However, there have been cases in which the current methods restrict the Senate's ability to act quickly and best represent students. This legislation aims to expand the methods of verification available to Senators in future years.

1 Be it enacted by the Students' Association Government in Senate assembled,
2 that the Policy and Procedures Manual of the Students' Association Senate, Article IV
3 Section 3, Subsection C(i)2b(ii) is amended to include the new sections to allow for
4 Senate resolutions to be verified by Endorsement or Public Demonstration.

Signature of Confirmation
Ethan Bidna
Speaker, Students' Association Senate

Signature of Approval
Grant Dever
President, Students' Association
